

## Longspan Calculator

How high would you like the shelving?  m

How wide would you like the shelves?  mm

How deep would you like the shelving?  mm

### Based on the information provided we calculate.....

Total number of possible bays   
Giving an overall run length of  mm  
with space left over of  mm

Each Bay comes with bolted uprights (not welded), 4 shelves, fitted with 18mm particle board all with a capacity of  kg

Estimated cost of Longspan shelving unit (inc Gst)  inc GST  
Note: Extra shelved can be purchased at a cost of  inc GST

(Note: please call as you may be eligible for a discount)

You can still add another bay with same selected Height and Depth to fill your space, just with a shorter shelf length. See our suggestion below:

We could add another bay at a length of  mm  
giving you a space left over of  mm  
The total cost would be  inc GST
